PROPOSITION 442

OFFICIAL TITLE

A RESOLUTION PROPOSING AN EXTENSION OF ALTERNATIVE EXPENDITURE LIMITATION FOR THE CITY OF PRESCOTT.

DESCRIPTIVE TITLE

Pursuant to the Arizona State Constitution, this proposal establishes an alternative expenditure limitation for the City of Prescott for the next four years. Annually, the City Council will determine the amount of the alternative expenditure limitation for the fiscal year after at least one public hearing. This alternative expenditure limitation replaces the state-imposed expenditure limitation.

A "YES" vote shall have the effect of establishing an alternative expenditure limitation for the City of Prescott.

A "NO" vote shall have the effect of not allowing the City of Prescott to establish an alternative expenditure limitation and to require expenditures of the City to be limited by the state-imposed expenditure limit.

PROPOSITION 443

Shall the City of Prescott adopt a transaction privilege tax of three-quarters of one percent (0.75%), the revenue from which shall be dedicated to the payment of the City's unfunded liability to the Public Safety Personnel Retirement System, taking effect on January 1, 2018, and ending the earlier of December 31, 2027, or at such time as the City's PSPRS unfunded liability is \$1.5 million or less as determined by actuarial value?

A "YES" vote shall have the effect of adopting a transaction privilege tax of three-quarters of one percent (0.75%), the revenue from which shall be dedicated to the payment of the City's unfunded liability to the Public Safety Personnel Retirement System, taking effect on January 1, 2018, and ending the earlier of December 31, 2027, or at such time as the City's PSPRS unfunded liability is \$1.5 million or less as determined by actuarial value.

A "NO" vote shall have the effect of not adopting a transaction privilege tax of three-quarters of one percent (0.75%), the revenue from which would have been dedicated to the payment of the City's unfunded liability to the Public Safety Personnel Retirement System.
